

***PLEASE NOTE.** Since the way color is displayed on a screen varies from one monitor to another, color can not be approved or chosen by looking at it on a computer screen. Please compare Pantone Color Codes to a Pantone swatch for final approval of color scheme. If you do not have a Pantone Formula Guide, you should be able to find one at either your local hardware, interior design store, or a Home Depot. Once final approval of the artwork is given, BCS Label is not responsible for the color.
